MEMORANDUM

TO: ENVIRONMENTAL REVIEW COMMISSION
The Honorable Mike Hager
The Honorable Ruth Samuelson
The Honorable Brent Jackson

FISCAL RESEARCH
Mr. Mark Trogdon, Director, Fiscal Research Division

FROM: Neal Robbins, Director of Legislative Affairs

SUBJECT: 2014 Animal Waste Management Annual Report

DATE: October 1, 2014

Pursuant to G.S. 143-215.10M, the Department of Environment and Natural Resources shall submit to the Environmental Review Commission and the Fiscal Research Division a report on the permitting, inspection, and compliance activity of animal waste operations across the state by October 1st of each year. Please consider the 2014 Animal Waste Management Report attached as the formal submission of this report.

If you have any questions or need additional information, please contact me by phone at (919) 707-8618 or via e-mail at neal.robbs@ncdenr.gov.

Department of Environment and Natural Resources Annual Report on Animal Waste Operations Permitting, Inspection and Compliance Activities

July 1, 2013 through June 30, 2014

Per G.S. 143-215.10M, the Department of Environment and Natural Resources reports annually to the Environmental Review Commission and Fiscal Research Division on the permitting, inspection, and compliance activity of animal waste operations across the state. Accounting for activities required under G.S. 143-215.10F and S.L. 1997-443 (and its subsequent amendments) is also included in this report.

General Statute 143-215.10F requires annual inspection of every permitted animal operation by the Division of Water Quality (DWQ) (Divisions of Water Quality and Water Resources have merged into one program called the N.C. Division of Water Resources (DWR), effective August 1, 2013). Under S.L. 1997-443, the Division of Soil and Water Conservation (DSWC) (effective July 1, 2011, DSWC is a division under the Department of Agriculture and Consumer Services) has been conducting a pilot project inspecting swine operations in Brunswick, Columbus, Jones & Pender counties. Effective July 1, 2011, HB 200 removed the requirement for DSWC to inspect each animal operation annually and removed funding for the operations reviews. As a result, DWR conducts all routine animal operation inspections except for those facilities located in the above mentioned counties. DSWC continues to perform pilot program inspections under S.L. 1997-443, and provides technical assistance and operation review inspections upon request.

The tables below indicate the number of inspections performed by the DWR and the DSWC, the numbers of violations identified during inspections, enforcement actions initiated, and permits issued for July 1, 2013 through June 30, 2014.

Overall, the two divisions conducted 2,295 compliance inspections and operation reviews during the 2013-2014 fiscal year throughout the seven regional offices (Table 1). Regional office abbreviations are explained at the end of this document. Each facility received at least one compliance inspection by DWR, or by DSWC in pilot counties.

Table 1. Inspection activities of DWR and DSWC staff during the 2013-2014 fiscal year.

INSPECTIONS	ARO	FRO	MRO	RRO	WARO	WIRO	WSRO	State Totals
DWR Total number of inspections completed	26	794	63	236	437	458	124	2138

**Department of Environment and Natural Resources
Annual Report on Animal Waste Operations Permitting, Inspection and Compliance
Activities**

July 1, 2013 through June 30, 2014

Table 2 presents the total number of animal permits issued by DWR by regional office in FY 2013-14. This number includes new projects, as well as, any modifications made to existing permits including renewals. Approximately 2,300 farms are covered under State General Permits, which are renewed on a five-year cycle. The next renewal for these permits is taking place in 2014 for which DWR received approximately 2200 applications so far. These applications are under review and are not included in these tables. The permits will be issued October 1, 2014.

Table 2. Permits issued by DWR for animal operations in each Regional Office during July 1, 2013 through June 30, 2014.*.

ANIMAL OPERATIONS PERMITS ISSUED		ARO	FRO	MRO	RRO	WARO	WIRO	WSRO	State Totals
Swine		0	19	0	8	35	0	1	63
Cattle		0	0	0	0	0	0	3	3
Poultry		0	0	0	0	0	0	0	0
Horses		2	0	0	0	0	0	0	2
Manure Hauler		0	0	0	0	0	0	0	0
Totals		2	19	0	8	35	0	4	68

* Includes modifications, renewals, and new projects

Tables 3 and 5 provide a summary by regional office of numbers and types of deficiencies and violations found during DWR and DSWC inspections over the past fiscal year. Some of these violations were self-reported and were included in the table to provide a complete picture of the number of deficiency or violation letters issued.

Table 3. Deficiencies and violations found during DWR and DSWC inspections during the past fiscal year by each Regional Office.

DEFICIENCIES AND VIOLATIONS IDENTIFIED	ARO	FRO	MRO	RRO	WARO	WIRO	WSRO	State Totals
Deficiencies and Violations found during DSWC operations reviews and DWR inspections*	2	17	14	45	16	29	55	178
Number of facilities receiving a deficiency or violation from inspections	3	7	7	2	20	7	6	52
Enforcement actions initiated for violations noted during this year**	1	0	0	0	0	0	1	2

*Violation totals include violations noted during both operation reviews and compliance inspections and may include multiple violations at a single facility.

**Some violation letters were sent due to violations that were self-reported, and not discovered during an inspection.

***Some enforcement actions being developed by the regional staff are normally not shown as actions initiated during that year. These actions will be included in the next annual report.

Out of the 2,295 inspections, approximately eight percent of the inspections identified violations (Table 4). Note that each inspection reviews seven major items and with 2,295 inspections, there is the potential for a total of 16,065 major violations. There were 178 violations identified (less than one percent of the universe of potential violations). Inadequate freeboard, unpermitted discharges from the systems, evidence of over application and use of crops not identified in the permit were the most common violations and deficiencies (Tables 4 – 6). Cattle and Swine facilities had the highest number of violations and deficiencies among the types of animal operations (Table 6).
